IT Recruitment

IPC has been delivering business, project management, information security, and information-technology consultants to both government and commercial sectors since 1989. IPC recruits IT consultants for many other Perth based IT shops directly from the street. Recruiting through IPC guarantees that your organisation will not be paying any other middle-layer recruitment company. IPC WILL NOT provide consultants via a third-party.

IPC is not a “body shop” and IPC strives to ensure that all candidates put forth for a position/role are correctly matched. IPC expects all candidates put forth to reach the short-list and would be surprised otherwise.

As noted above IPC engages only the highest quality IT consultants. Candidates who hope to join the team at IPC are exposed to a rigorous selection process to ensure our clients enjoy only the highest quality, professional standard of service.

Below is an example list of typical IT roles IPC is able to supply.

- CIO / IT Governance;
- Program / Project Managers;
- Software License Managers;
- Enterprise Architects;
- Integration Architects;
- Solution Architects;
- Business Analysts;
- Developers (Java/JEE, .Net, VB, PERL) (IPC specializes in JEE);
- OS Administration (HPUX, AIX, Solaris, most varieties of Linux, Microsoft-OSS);
- JEE-App-Server Administrators (WebSphere, Sun-App-Srv, Glassfish, Tomcat, JBOSS, webLogic, SAP-WAS, TIBCO,webMethods);
- Database-Administrator (DB2, Oracle , MS-SQL, SYBASE);
- LDAP/Identity-Management (MS-Active-Directory, SUN-ONE, Novell)
- Test-Managers;
- Testers;
- Security Specialists; and
- Business Continuity and Disaster Recovery Specialists.

IPC provides full HR/PAYROLL facilities for employees. IPC provides/facilitates full Java/JEE training for permanent & casual employees.
